logicindia.tech

ADVANCED TECHNOLOGY GROUP (ATG) · EXECUTIVE RESEARCH PROFILE

DOC-ID: LOGICINDIA-ATG-2026-V4 · OCTOBER 2026 EDITION · AUTHORIZED PUBLIC BRIEFING

1. Executive Charter & Heritage

logicindia.tech was founded to pioneer next-generation computational hardware, precision physical interfaces, zero-latency optical telemetry, and circular sustainable materials engineered from India to the global frontier.

Our multidisciplinary laboratories operate across Bengaluru, Hyderabad, and Pune. We combine high-modulus forged carbon architecture with dynamic micro-fluidic actuation to redefine how human intent interfaces with spatial computing and on-device neural edge models.

84+	3 Hubs	45,800+	-140g CO2e
DEEP-TECH PATENTS FILED	NATIONAL R&D CAMPUSES	ENGINEERS ON DISPATCH	NET HARDWARE CARBON

2. Core Ongoing Technologies (Under Active Prototyping)

TACTILE & SENSORY COMPUTING · HARDWARE LAB

Micro-Fluidic Actuation: Giving Peripherals a Sense of Living Texture

Why should a switch feel identical whether compiling kernel code or sculpting 3D geometry? Our optical micro-fluidic switches adapt physical resistance dynamically from 35g to 85g.

SUSTAINABLE ENGINEERING · CIRCULAR DESIGN

Forged Ocean Carbon: The Architecture of Carbon-Negative Hardware

Moving beyond recycled plastic tokens. How logicindia.tech transforms industrial carbon capture into forged, structural exterior chassis with negative lifecycle footprint.

TELEMETRY & CONNECTIVITY · PROTOCOL V4

Quantum-Sync Protocol: Sub-0.1ms Optical Wireless Without Dongles

Radio spectrum in dense workspaces is congested with Wi-Fi 7 and Bluetooth. Our solution blends localized infrared optical beamforming with ultra-wideband RF.

EDGE INTELLIGENCE · NEURAL HARDWARE

The 1.2W Neural Co-Processor: Local Context Without Cloud Latency

Peripherals should not simply relay raw coordinate streams; they should anticipate cognitive workflow intent. Introducing on-peripheral neural reasoning.

3. National R&D Campuses & Facilities

Bengaluru — Bengaluru Advanced Computing & Haptics Center

Location: Plot 42, Electronic City Phase 1, Hosur Road, Bengaluru, Karnataka 560100
Focus: Micro-fluidic Haptics, Precision Biomechanics & Acoustic Ergonomics
Inquiries: bangalore-lab@logicindia.tech | +91 (080) 4920-8800

Hyderabad — Hyderabad Semiconductor & Telemetry R&D Campus

Location: WaveRock Building, Financial District, HITEC City, Hyderabad, Telangana 500081
Focus: Optical Telemetry, Nanoscale Sensor Silicon & Quantum-Sync Protocols
Inquiries: hyderabad-rd@logicindia.tech | +91 (040) 6740-5500

Pune — Pune Materials & Circular Hardware Design Hub

Location: Rajiv Gandhi Infotech Park, Phase 2, Hinjawadi, Pune, Maharashtra 411057
Focus: Forged Ocean Carbon, Bio-resins & Cradle-to-Cradle Manufacturing
Inquiries: pune-materials@logicindia.tech | +91 (020) 6680-3300
